PARKES ACT 2600

Dear Sir/Madam

## Submission relating to SimplerSuper

I am writing on behalf of the PNG Association of Australia Inc., which I represent on the Australian Council of Public Sector Retiree Organisations Inc. Over 300 members of the PNGAA are former members of the pre-independence PNG Administration and are recipients of pensions from the PNG Superannuation Scheme, most of whom would be over the age of 65. That Scheme is now administered by CSS.

We have received enquiries from members as to whether the 10% tax offset proposed for recipients of pensions paid from "Untaxed superannuation schemes" will be available to recipients of PNG Superannuation Scheme pensions – ie. whether that Scheme will be classified as an "Untaxed superannuation scheme" for the purposes of the new superannuation arrangements.

Enquiries I have made to date have failed to receive a definitive answer to this question. I have been told that until the necessary legislation covering the new arrangements is in place, the question cannot be answered conclusively.

The purpose of this submission is therefore to seek to ensure that the PNG Superannuation Scheme is included in the proposed new legislation as an untaxed superannuation scheme, the benefits of which will extend to pensioners of the PNG scheme. It is our belief that excluding them would be inequitable, unjust and a serious anomaly.

Yours faithfully,

C E Tim Terrell, AM
